Privacy

When reporting on the school's performance to the school community, care must be taken to avoid the disclosure of information that can directly or indirectly identify an individual. This may be a particular issue when reporting on the achievement of specific cohorts of students or the opinions of staff where there are small numbers.

In situations where privacy cannot be assured, schools may wish to report on the mean result or provide a written comment on school, year level or cohort performance.

Where the School Level Report is provided to school council members as part of any annual reporting process, or used for discussion on a school's performance, such as in consultation with the school community in the school self-evaluation process, it is important to remind school community members of their duty to only use this information for the purpose it was provided, and that the material must be kept confidential.

It is important to note that information that identifies an individual or can be used with other readily available information to identify a person is now protected by the *Information Privacy Act 2000* (<http://www.education.vic.gov.au/about/deptpolicies/informationprivacy.htm>).

Notes:

¹ Students can be DNC (deemed not capable) only if they meet one of the conditions (insufficient English, receiving D&I funding, insufficient attendance at the school or referred from Reading Recovery) AND read below the minimum standard.

² The number of students at risk is the number of students reading at less than 90% accuracy at Level 1 for Prep, Level 5 for Year 1 or Level 15 for Year 2.

Assessment of Reading: Prep to Year 2

School no: 4962

School name: Bell Park North Primary School

Explanation: Students' ability to read unsighted text is assessed at the end of each year.

Source of data: Data transmitted from school to DEECD via an online web-form.

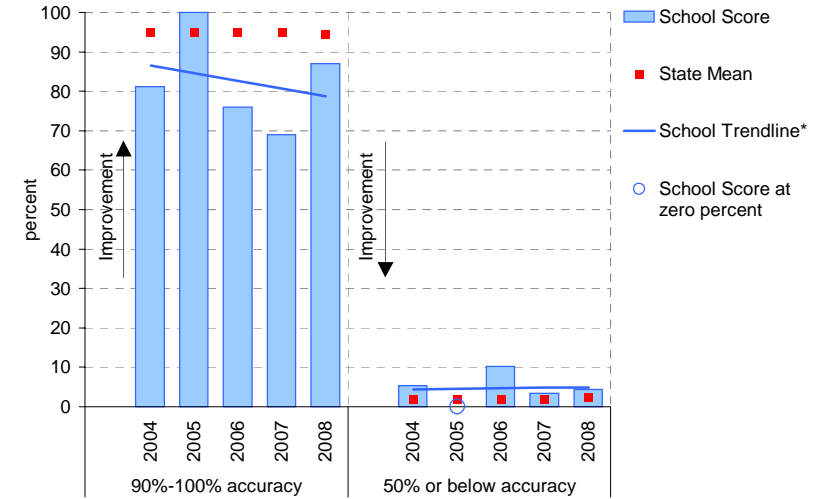

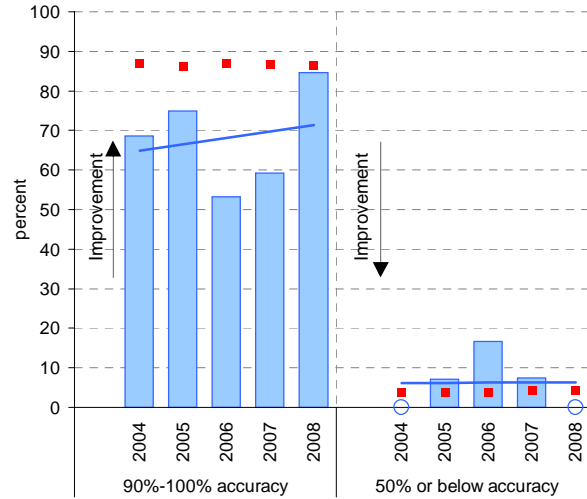

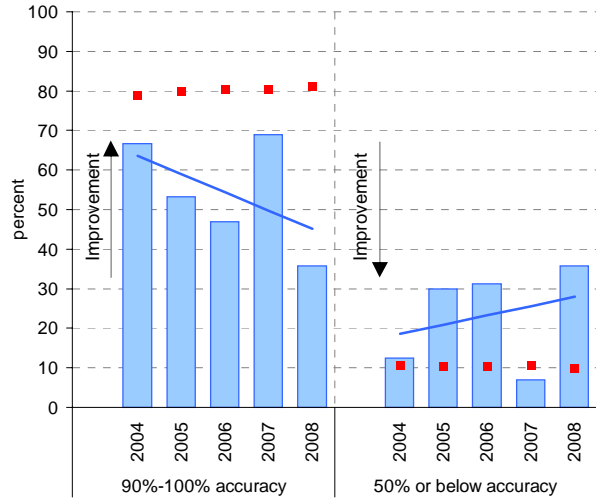

Notes: * The school trendline is being trialled. It is only plotted when there is data for each calendar year.

^ This data is highly skewed, with a lot of schools obtaining the best possible result, particularly in Year 2. The maximum achievable percentile is therefore significantly less than 100.

shading indicates a 'C' grade (at the expected standard) on the VELS scale.

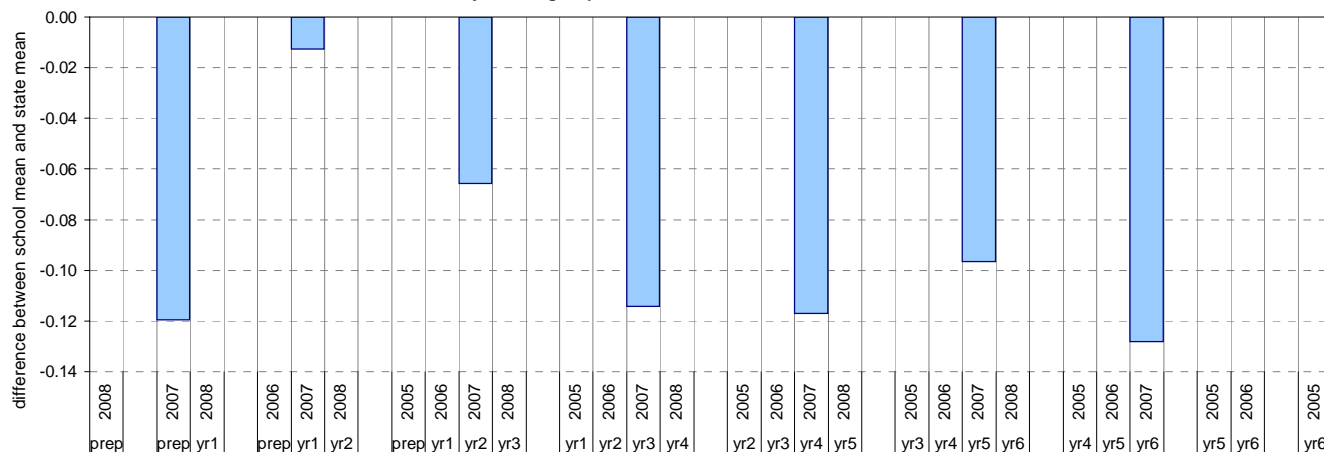

¹ The total number of students eligible to be assessed. This figure will typically match, or be very close to, the Year Level enrolment.

² The number of students assessed against the VELS. The difference between this figure and the total (1) should be accounted for by students assessed against Individual Learning Plans and/or the ESL companion in the case of English.

* In 2006, approx. 850 schools assessed their students against the 0.25 VELS scale. 2006 benchmarks are therefore based on a subset of schools.

^ 2008 benchmarks will be calculated in August, when data from all schools has been submitted.

Performance & Development Culture (P&DC)^{††}

NEW

School no: 4962
School name: Bell Park North Primary School
Explanation: The data on this page refers to the Staff Opinion Survey.
Source of data: Data transmitted from school staff to DEECD via an online survey application.

School Mean against Primary State Median

- Notes:
- †† An assessment of the correlation between the P&DC Questionnaire and the Staff Opinion Survey was undertaken using data from Victorian Government schools that completed both surveys from 2005 to 2007 (ie. 699 schools). This led to the identification of the components of the Staff Opinion Survey that could be used to assist schools with the ongoing monitoring of their performance and development culture. Refer to the P&DC website for further information: <http://www.education.vic.gov.au/management/schoolimprovement/panddc/default.htm>. For numerical results relating to the above graph, refer to the Staff Opinion Survey page in this report.
 - † Note that there is no significant correlation between the Staff Opinion Survey and P&DC elements 1 (Induction) and 3 (Customised Individual Development Plans).
 - ^ The P&DC threshold was derived from the P&DC Questionnaire 'percent favourable' methodology where a school is considered at the standard of accreditation when their Element score is >75% favourable (ie. at least 75% of staff selected the top two response categories in the P&DC Questionnaire).
 - * The school trendline is only plotted when there is data for each calendar year.
 - ** If there were 3 or less respondents, graph data is not shown for confidentiality reasons.
 - ^^ Benchmarks are available for Primary, Secondary, Pri/Sec, Special & SDS schools.
